(54) BALLOON CATHETER DEVICE AND BALLOON CATHETER SYSTEM

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a balloon catheter device for guiding the tip of a catheter by a guide wire and a balloon catheter system composed by inserting the balloon catheter device to the inner hole of a balloon catheter for expansion.

SOLUTION: This balloon catheter device is provided with the catheter, a balloon mounted on the tip part of the catheter and an end part sleeve disposed on the tip of the catheter and the guide wire is inserted so as to be projected from the tip opening of the end part sleeve through an opening formed on the peripheral wall of the end part sleeve. Also, this balloon catheter system is composed by inserting the balloon catheter device to the inner hole of the balloon catheter for the expansion.
